CHURCH OF ENGLAND  
PRIMARY SCHOOL

Weekly news - Find out what we have been discovering this week

# YR News

## 3D Shapes

This week, in Maths, we have been learning about 3D shapes. We sorted 3D shapes according to their properties and discussed which ones rolled and which ones didn't and why this was the case.

## RE

During RE, this week, we learnt that Christians believe that Jesus' death and resurrection symbolise forgiveness and a new start. We learnt that, for Christians, the cross can be described as a bridge between God and people. Later in the day we explored this by making our own bridges out of dough and construction materials. We also drew pictures about times we had been forgiven or forgiven others.

## Mothers' Day

A real highlight for Reception this week was our Mothers' Day service at St Agnes' Church. Reception were extremely confident and led the service with clarity and courage. We shared photos of our mummies and talked about why we loved them. We sang songs about God's love for everyone and we handed out some flowers to our special people.

## Cards

To celebrate Mothers' Day we made cards for our mummies, carefully making paint dots onto the flowers and writing special messages inside.

**We are celebrating you!**

This week we are celebrating Sylvia for her confidence and courage.

# Year 1 News

## Omnivores

We have learnt that omnivores are animals that eat both plants and other animals. We looked at the diets of a range of animals and decided whether they were omnivores or not. We noticed that omnivores have a mixture of sharp and flat teeth to help them to chew both plants and meat/fish. We then chose an animal, found out about its diet and created chains to represent the variety of foods it eats.

## 1 More and 1 Less

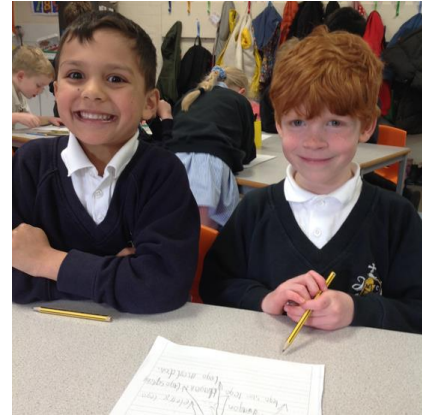

We have continued to develop our understanding of place value by identifying 1 more and 1 less than a given number. We used pictorial representations and practical resources to help us to work out the answers.

## Toys!

In Writing, we have been reading a poem about toys. We have discussed our favourite toys and thought of words to describe them.

This week, we're celebrating Inaya for her excellent effort and enthusiasm for learning!

Emily T and Nola are writers of the week for their super partner work about toys!

## Send and Return

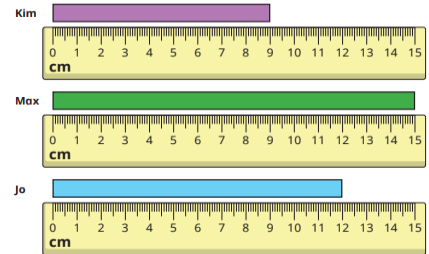

We have been practising throwing, bouncing and rolling tennis balls around a range of obstacles. We have developed our teamwork and numeracy skills by playing throwing and catching games in teams whilst keeping track of the score.

# Y2 News

## Maths:

It was fun, this week, to solve both one-step and two-step problems relating to length and height. We used concrete and pictorial representations to support us in understanding the questions, and in calculating efficiently.

In **Geography**, we carried out some field work and used tally charts to record our findings. We visited our woodland area to investigate the types of plants and animals that might live there.

**English:** we used "Things to see in the UK" image cards to map out the text. We worked in small groups and collected words and phrases that could be used to describe Birmingham positively, and persuade people to visit. It was great fun to use geographical vocabulary to describe the landscape features of our local area.

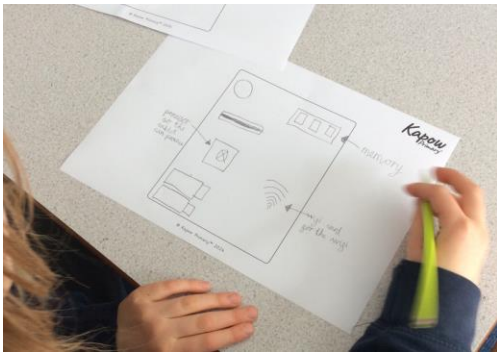

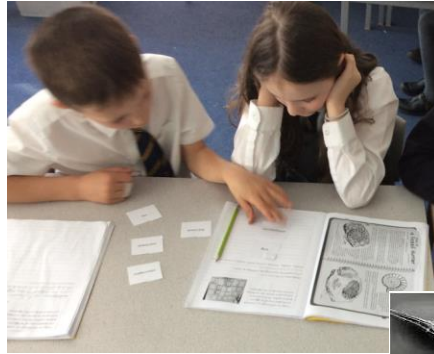

**Writer of the Week: Tilly**

**Star of the week is: Meerab**

# Year 3 News

In English, we published our explanatory texts all about light. We then began our new writing topic: personal recounts. We read through an imagined diary entry from Mary Anning and explored the etymology of dinosaur names.

In computing, we learnt about the components inside a tablet and why they are needed.

In maths, we continued our learning about measure by exploring different equipment to measure capacity and volume. We were challenged to measure different volumes of water.

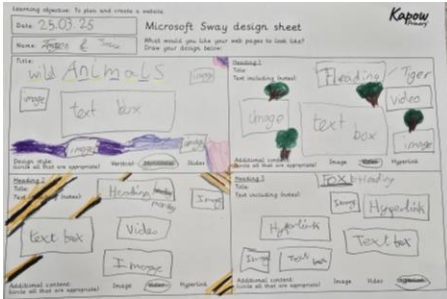

This week our shining star is J for sharing positivity and joy!

Our writers of the week are Jovan and Felix for their fascinating explanatory texts.

# Year 4 News

In Computing, this week, we started to make our own websites. We will be working on these over the next couple of weeks. We had to work in a pair, to choose a topic for our site and then gather some information. Then, we began to build what we wanted it to look like.

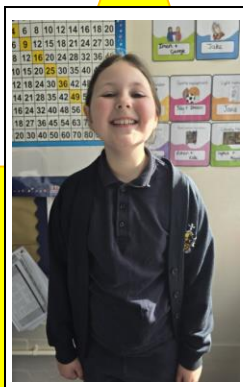

In Maths, this week, we have been learning about making a whole with decimal numbers. We have been practicing making a whole using tenths and hundredths.

In English, we have been editing our draft for our explanation texts about Fair Trade. Then, we have been publishing them neatly in our books.

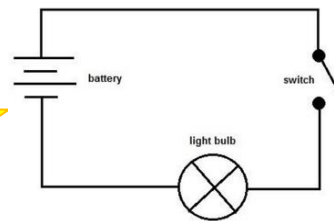

In Science, we have been learning how to fix 'bugs' in a circuit. We had to build and fix a circuit based on our knowledge of how they work.

In Geography, we were learning about our school meals and if we use any Fairtrade ingredients at our school.

This week's star is Imogen for working really hard this half term!

**Writers of the week:**

This week our writers of the week are:

Kenzie & Josie

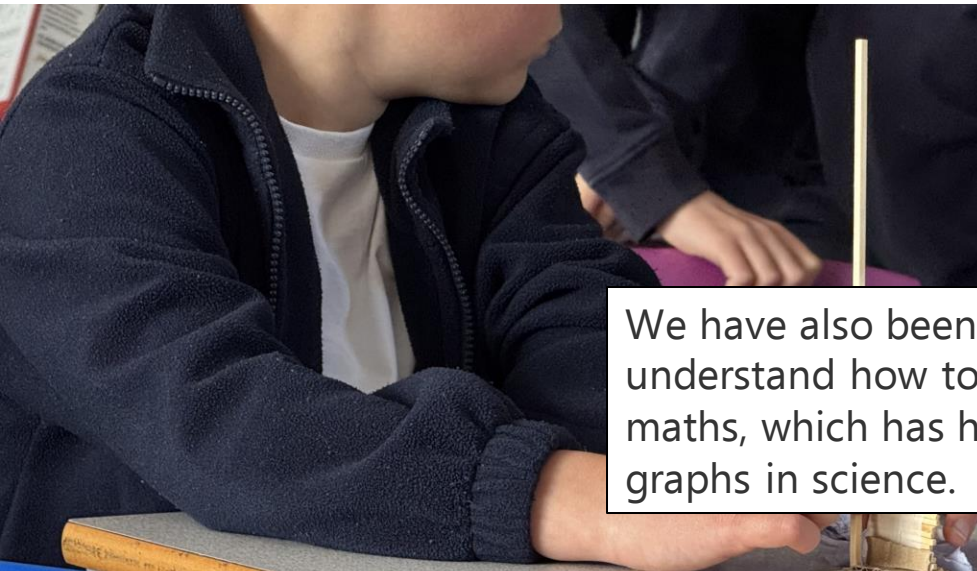

- for writing a great explanation text

# Year 5 News

This week, the children worked hard to make their final bridges. It was great to see their creativity and hard work, using the features we have looked at in our DT lessons.

We have also been working hard to understand how to analyse statistics in maths, which has helped us with using line graphs in science.

In our writing lessons, the children have been developing their creation myths. They have been very creative with their ideas, developing detailed plans to help them structure their stories.

## Writers of the week!

This week, we are celebrating Hattie and Alistair for their creative ideas.

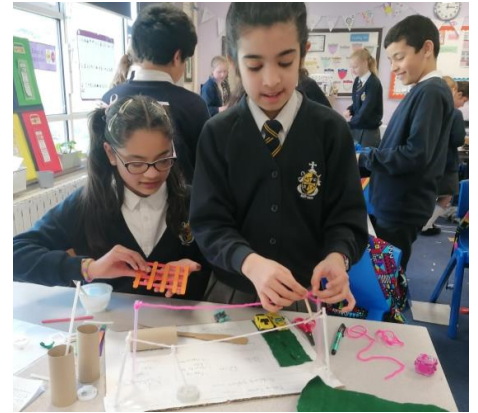

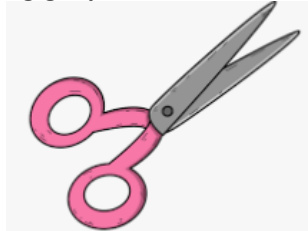

## Shining Star!

Our Shining Star this week is Noah for his passion for learning.

# Year 6 News

This week, Year 6 constructed their playgrounds using a range of materials. We had a very busy and productive afternoon!

In PE, this week, Year 6 have been practising their TAG rugby skills, in preparation for the tournament next week, with Y4 and Y5....

Our writers of the week are Benji and Aurielle, who have both made super progress in SPaG.

This week, our shining star is Rosha for being an excellent role model in Year 6.

Year 4 – Rohan

Year 5 – Eva

Year 6 – Lauren T

Great work this week everyone! Keep on working hard!

**GUESS THE EGGS:** The **Y6 children** will be fundraising for their Y6 leaver event on Monday, Tuesday & Wednesday in the last week of term. They'll be selling guesses at **50p a go** for children to guess how many eggs are in the jar with the winner declared in the last assembly of term and presented with the whole jar of eggs. Find us after you've gone through the school gates every morning from 7<sup>th</sup> April, or on the corner of School Road & Oxford Road after school.

# GUESS THE EGGS WIN ALL THE EGGS!

## 7<sup>th</sup>-9<sup>th</sup> April

(Monday-Tuesday-Wednesday!)

### Only **50p** Per Go!

AM – Drop Off / Main Entrance

PM – Pick Up / Playground

\*\*\*WINNER ANNOUNCED IN ASSEMBLY 11<sup>th</sup> APRIL\*\*\*

Following on from our 'Parking Safely' information and flyers, we have noticed cars are still parking over driveways around school – please be courteous to residents on roads around school and don't block driveways.

Also, please read the flyer below – 'idling' cars, with engines running while waiting for the school gates to open, can make the air unpleasant and dangerous to breathe – please think about people who are walking on the pavements around school – for our school community, but also for other pedestrians as well.

This is a message from 'Class Act Theatrix' who are running an Easter Workshop – see below for information and booking details ...
